

MAHLE

DEMAND THE BEST

MAHLE has the **MOST COMPLETE** head set for the Ford 6.0L Power Stroke® engine!

The difference isn't just the head gaskets... Not only does the MAHLE set include the head gaskets and 45 additional gaskets & seals (which are color coded to match OEM), **YOU WON'T GET THE SAME QUALITY ANYWHERE ELSE!**

Power Stroke® is a registered trademark of Ford Motor Company.

MAHLE part # HS54450
(18 mm pictured; 20 mm HS54579 is also available)

→ **Torque-to-Yield head bolts sold separately – giving you the flexibility of using OE equivalent replacement bolts (available from MAHLE Aftermarket) or replacing the OE bolts with aftermarket studs.**

TAKE A CLOSER LOOK AT THE EX. MANIFOLD & EGR COOLER GASKETS:

MAHLE gaskets are *application engineered multi-layered/embossed stainless steel* which hold up against extreme temperatures of a medium duty diesel engine.

MAHLE USES TODAY'S LEADING EDGE TECHNOLOGY

Competitor's gaskets are made of an **inferior graphite composite material.**

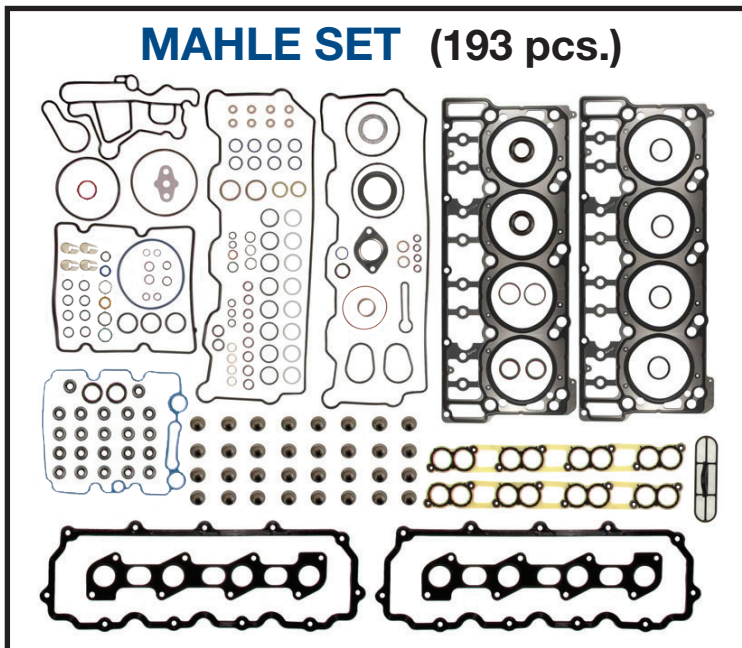

MAHLE

DEMAND THE BEST

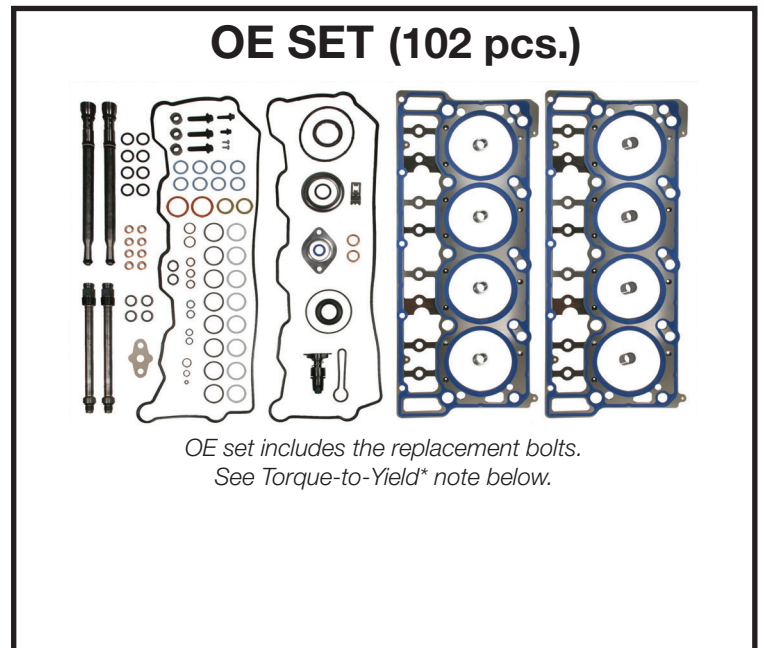

MAHLE has the MOST COMPLETE head set for the Ford 6.0L Power Stroke® engine!

The MAHLE Original set has **91** more pieces – such as the lower valve cover and intake/exhaust manifold gaskets, o-rings, high pressure oil pump and valve stem seals, and more...

Power Stroke® is a registered trademark of Ford Motor Company.

MAHLE part # HS54450

*OE set includes the replacement bolts.
See Torque-to-Yield* note below.*

→ Torque-to-Yield head bolts sold separately – giving you the flexibility of using OE equivalent replacement bolts (available from MAHLE Aftermarket) or replacing the OE bolts with aftermarket studs.
