

DEMAND**THE BEST****Why replace the entire TIMING COVER ASSEMBLY on 4.3L, 5.0L & 5.7L Vortec engines when MAHLE Original has a TIMING COVER GASKET SET?**

The OE timing cover gasket is a formed in place gasket (FIPG) of RTV on the timing cover. Removal of the cover involves replacing the entire assembly. MAHLE Aftermarket has a set to replace the FIPG and seal – making the job less expensive.

MAHLE Original

Timing cover seal is included.

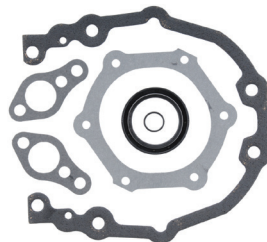

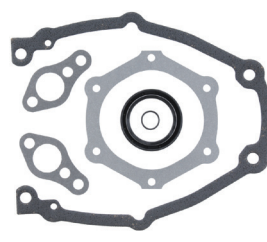

This MAHLE Original gasket set is available for the following applications:

Part No. JV5111 (58mm O.D. seal) and **JV5112** (61.5mm O.D. seal)

GM Truck (5.0L) VIN M ('96-'02)

GM Truck (5.7L) VIN R ('96-'01)

GM Car (5.7L) VIN R ('96-'03)

**JV5111 & JV5112****JV5113**

Part No. JV5113
