

# Repairing a Hemi<sup>®</sup>?

Exhaust manifold gasket for  
5.7L and 6.4L Hemi engines

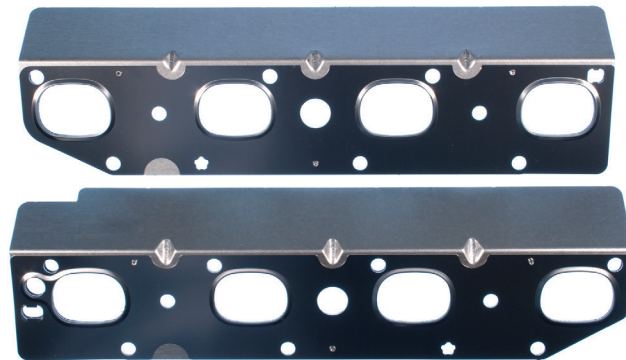

When you're repairing a Hemi® exhaust manifold, be sure to replace the gasket with a MAHLE gasket!

**MAHLE features OE form, fit, and function – replicating the OEM steel design – for superior heat resistance, to handle the heat generated by Hemi engines.**

**Featuring:**

- Raised embossments on both faces for maximum clamping load
- Multiple stainless steel layers with embossment
- Contoured to fit cylinder head exhaust ports
