THE BEST

Ford 4.6L / 5.4L 3-Valve Exhaust Manifold Gaskets

MAHLE Original offers four (4) single-piece 2-layer MLS exhaust manifold gaskets for this application, while Brand F has eight (8) individual graphite material gaskets. Not only is the MAHLE Original® MLS gasket superior in quality and performance, but it is **easier to install**.

MAHLE ORIGINAL

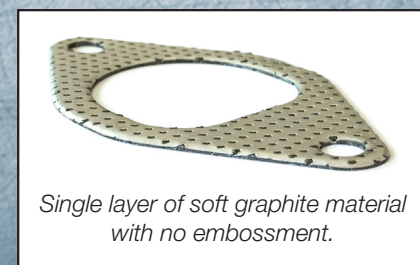

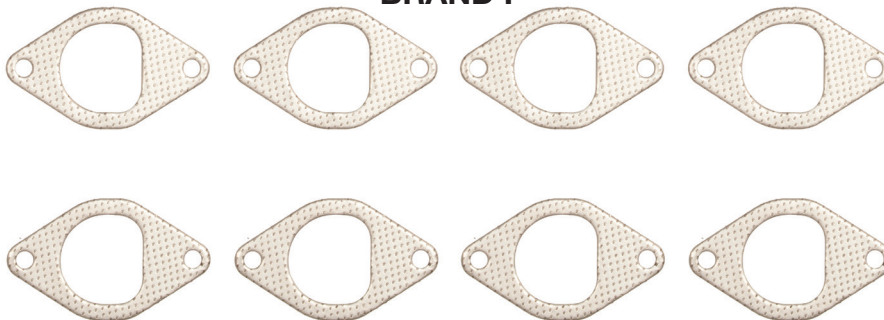

Part Number: MS19261 (A gasket for the 6.8L V10 is also available. Part Number MS19415)

Two layers of fully embossed rubber coated 301 stainless steel.

BRAND F

Single layer of soft graphite material with no embossment.
