Duramax rocker cover gaskets... What you see is what you get – MAHLE Original® IS OE Quality!

OE Duramax diesel rocker cover gaskets use rubber coated single-layer stainless steel with embossment which concentrates the sealing load to prevent leaks.

The **MAHLE Original** rocker cover gasket has OE form, fit & function utilizing the same style rubber coated single-layer stainless steel with embossment... delivering the same performance as the original!

Brand F uses a simple graphite material without embossment.

Which would you rather have on your Duramax?
