Honda Civic 1.8L Exhaust Manifold Gasket

Another Example of MAHLE Original Form, Fit & Function

OE Honda design uses a multi-layer stainless steel with embossment which concentrates the sealing load to prevent leaks and burn out.

The **MAHLE Original** gasket for the Honda has OE form, fit & function utilizing the same style multi-layer stainless steel with embossment... delivering the same performance as the original!

Brand F uses a perforated material without embossment which can allow for creep and burn out.

OEM**MAHLE Original Part #: MS19711****Brand F**

Which gasket would you trust to put on your Honda?
